

BACTZYME[®] PREMIUM BLOCKS

SIGNIFICANTLY ASSISTS IN MEETING REGULATORY REQUIREMENTS

SuperCHARGE Your Lagoon

with Billions of Beneficial Bacteria

IMPROVES APPLICATION

- Easier to place product where needed, especially in large lagoons
- Wind will not be a problem when throwing in lagoon
- Will break through a soft crust (water-soluble packets don't)

BETTER DIGESTION

- 20% more bacteria to speed up digestion
- Select strains of bacteria to make digestion more effective
- Significant reduction of odors (less flies in alleyways and around lagoons)

SLOW RELEASE

- Less loss of bacteria when pumping
- Better digestion of solids in lagoon where placed before flowing in to next lagoon

CROP BENEFITS

- When you irrigate, solids spread out evenly across the field.

You will have significantly less odor.

- Stabilized nutrients for increased uptake and production
- Neutralized soil acidity for corrected pH (increase earthworm activity)
- Minimizes crop 'burning'
- Less chemical fertilizer needed =

LOWER COSTS
